

Construction to Start on Palm Springs Spa

Leasing Is First In City

Construction will start this week on the first stage of "Palm Springs Spa," a plush, \$2½ million health resort centered in the heart of Palm Springs.

Developer Samuel W. Banowitz said work will start "within a week" on a luxurious \$500,000 bathhouse designed as a nucleus for the hot springs health center and hotel.

PLANS FOR PALM SPRINGS SPA, which made history earlier this year with the signing of the first long-term lease of Indian lands, call for development of the hotel shortly after completion of the bathhouse next June.

The bathhouse will be erected on the Indian Avenue-Tahquitz Road side of the city's original Indian hot springs well, located on land owned by the Agua Caliente band of Mission Indians.

REALTORS RUSSELL Wade and Lew Levy, who delivered Banowitz's announcement to The Desert Sun today, said the groundbreaking for the bathhouse was scheduled immediately after receipt of Federal approval for the Indian land leasing.

Originally announced last February, the development called for a 25-year lease, with a subsequent 25-year option, for 8½ acres of Indian-owned land.

Wade and Levy said the transaction was cleared in Washington last week by Raymond C. Simpson, attorney for the Indian Tribal Council.

TRIBAL APPROVAL was confirmed in a subsequent meeting between Banowitz, Simpson, the tribal council headed by chairman Viola Olinger, Leonard Hill, area director of Indian affairs, Ray Jackson, local Indian affairs director and Wade and Levy who represented both Banowitz and the Tribal Council in real estate negotiations.

Th Realtors said work was to have started some time ago but explained that groundbreaking was held up because of "technical delays in issuing title and other items in the transaction."

LEVY SAID the title was cleared and the government flashed a green light for construction. Designed by architect, William Cody and Victor Gruen, the bathhouse is the focal point of plans for a 200-room hotel and shopping center.

Plans for construction of the center were announced by Banowitz after he signed his historic lease—the first of its kind ever signed.

THE LEASE COVERS a rectangular plot bordered by Indian Avenue, Tahquitz, Arenas Road and Calle Encelia.

Nationally prominent as a developer, Banowitz is particularly known for his major building projects in New York, Chicago and Beverly Hills.

He is president of National Properties, Inc., and is responsible for the construction of at least two major office skyscrapers in Chicago, a number of New York and Beverly Hills real estate projects and two office buildings now under construction in Beverly Hills.

NORFOLK, Va. — UPI — Norfolk voters turned out today to say whether they prefer integrated public schools or closed schools.

City Clean-Up

'Pride and Shine Week' To Be Observed Dec. 1 to 6

Expansion in Palm Springs has helped the city in every way but cleanliness. Villager Harold Hicks told a group of representative citizens here yesterday.

Charging that some properties are in a gradual decline and main thoroughfares and vacant properties in a state of deterioration, Hicks told the group that they must accept the challenge of maintaining neatness here if Palm Springs is to continue as America's foremost desert resort.

HICKS MADE HIS declarations after accepting a post as head of a committee that will see to raise cleanliness standards throughout the Village. The committee was organized at the joint request of the City Council and the Chamber of Commerce.

"We must supplement the job that the Chamber is doing to attract people to Palm Springs by keeping the community so clean and attractive that they will want to return again and again," Hicks said.

U.S. Warns Russia All Flights to Continue; Airmen May Fire Back If Attacked Again

Central U.S. Battered by Storm; 6 Die

Searchers Meet
Blizzard in Quest
For 18 Missing

United Press International
A record storm, which lashed the West and Midlands with devastating tornadoes, deep snow and drenching rains, veered northward today with blizzard conditions whipping sections of Minnesota and the Dakotas.
At least six deaths were blamed on the storm which began on the West Coast during the weekend and rolled across the Rockies to batter a vast region from the Canadian border to Mexico.

ANOTHER 18 PERSONS were missing, including three Boy Scouts and three airmen lost in snowy western wilderness regions. Scores of persons were stranded temporarily in lodges and along snow-clogged highways.
The vicious snowstorm smashed records in Southern Arizona's Catalina, left snow 20 inches deep in Southern Wyoming and 16 inches in the Dakotas. Nearly 100 schools were closed in Kansas.

THE CHICAGO Weather Bureau said the storm also probably set a record for its extent and ferocity this early in the season.

Ahead of the wintry blasts, southerly winds pumped mild weather into the East, setting the stage of a rash of twisters which skipped Monday through Oklahoma, Missouri, Kansas, Minnesota, Iowa and Illinois.

Hardest hit was Elkader, Iowa, where a tornado swooped down on the town's main street, "like a fireball" Monday afternoon. About 14 buildings were damaged and the roof of the county jail was torn away. Six to eight automobiles were demolished.

IN THE WEST, searchers slogged through deep mountain snows for three thin-clad Boy Scouts missing since Sunday in the frigid Santa Rita Mountains south of Tucson. There was little hope the youngsters would be found alive.
However, hope mounted that two missing airmen might still be alive high in the Rocky Mountains west of Fort Collins, Colo. A search report reported sighting a series of fires arranged in an "L" shape near the summit of Hayden Peak.

AF General Demands Jet Escape Plan

Supersonic Death Toll "Alarming," Manufacturers Told

Aircraft manufacturers attending an Air Force safety conference here today were called on to develop a new emergency escape system to reduce "alarming" pilot fatalities.
Maj. Gen. Joseph D. Caldara, director of flight safety research for the Air Force, urged aircraft builders to increase a pilot's chances for survival with improved escape systems.

GENERAL CALDARA, speaking to more than 250 military and civilian aviation safety specialists in an El Mirador Hotel conference, pointed out that pilot fatalities are reaching new proportions.
"Although the Air Force major accident rate is at its lowest mark in history, more pilots are being killed in aircraft accidents proportionately than at any other time," the general said.

EMERGENCY ESCAPE devices for pilots, he noted, require new and greater emphasis with "the advent of supersonic aircraft flying at speeds far beyond the realm of imagination a few years ago."

The meeting, the 37th Air Force - Aircraft Industry Conference, runs through Wednesday at the El Mirador. It involves concentrated discussion on aircraft escape systems by ranking military and civilian experts in the field.

Sailor Kidnaps Three Shipmates

BOSTON UPI—A sailor abducted three shipmates at gunpoint from their ship early today, shot and wounded one of them ashore, and fled to Providence, R. I., where he was captured less than four hours later.
Machinists Mate Fireman Raymond J. Lizotte, 22, Poplar, Mont., appeared on the quarterdeck of the radar picket boat USS Investigator with a .22 caliber pistol.
He accosted two seamen returning from liberty and another crewman, the Navy said, and forced them ashore at gunpoint.

SHAKEN BUT NOT BRUISED is Sgt. E. E. Wheeler, of Twenty-nine Palms Marine Base, who came up without a scratch when his car went out of control, flipped through one complete roll-over and landed on its wheels. Wheeler told Highway Patrol officers he was headed east on Highway 99, at the Highway 111 cutoff, when a woman motorist cut in front of him forcing him to swerve

his auto. The car hit the roadside shoulder and flipped over, hitting the ground once, and flew high enough to spin without hitting again before it came to rest right side up. Wheeler, who later started his car and drove off, surveys the only damage to his vehicle while he calms his jangled nerves with a cigarette. (Desert Sun Photo)

FROST DAMAGE TO CV CROPS TO RUN INTO MILLIONS

Cold winds whipped through the Coachella Valley this weekend, doing an untold amount of damage and carrying with it the dreaded "Black Frost" which did millions of dollars worth of damage to vegetable crops in the fruitful winter farmlands.

Dale Harris of Coachella, U. S. Weather Bureau official, reported that the "frost" which hit the valley late Sunday night and early Monday morning and continued over Monday night would completely wipe out the tender vegetable crops.

BY LAST EVENING Harris reported that over 90 per cent of the beans, eggplant, and squash plants had been killed, and that the "Black Frost" had ruined 80 per cent of the sweet corn crop.
The temperature Sunday night and early Monday morning dropped to a low of 22 degrees, and that all weather graph stations in the valley but one listed a below freezing record.

"BLACK FROST," scarcely heard of in the Coachella Valley

area, is caused by a strange phenomenon of a tremendous drop in temperature to a point below freezing, but no frost forms. The tender plants in the fields freeze and die and turn black.

Although the "Black Frost" completely destroyed the tender vegetable plants, according to Harris there was no damage to the citrus or citrus trees in the valley.

Council, Planners To Discuss City Master Plan

A special City Council-Planning Commission study session will be held Wednesday at 1 p.m. to discuss the completion of the city master plan.
The plan, which has been more than two years in the preparation stage, will be presented by special planning consultant Simon Eisner.

la Valley, on Saturday, heavy winds did an estimated \$45,000 damage to a tent city and stage properties in La Quinta, where Walt Disney is filming Lloyd Douglas' novel, The Big Fisherman.

Rain fell in scattered areas of the desert Saturday, from Palm Springs to Indio, but official records showed only a trace in any tested area.

The strange weather made itself known also in Palm Springs, as winter residents looked to the warmth of fireplaces and heaters.

DESPITE THE crisp wind however, the sun was bright and warm Monday. The wind, blowing from the north-west, was cold off the snow-laden San Bernardino, where Big Bear recorded a 14 below zero. Big Bear valley had six inches of snow and up to 20 inches were recorded on higher ridges.

Some snow fell on the higher peaks above Indio, and yesterday the temperature in the area was reported in the low 30's.

Threat Follows Two Attacks on U.S. Planes

WASHINGTON (UPI)—The United States refused today to change any of its military flight schedules and made it clear that U.S. airmen may fire back if they are attacked again by the Russians.

This position was outlined after the State Department disclosed Monday that Soviet fighters made forays against two U. S. military planes—one over the Baltic Sea and the other over the Sea of Japan—on Nov. 7.

RUSSIAN FIGHTERS fired twice on the plane of the Baltic. Simulated attacks were carried out on the plane over the Sea of Japan. Neither plane was damaged.

An Air Force spokesman told United Press International that there will be "no curtailment of any of our training or routine flights."

He emphasized that these flights are not provocative and there is no reason for the Soviet attacks. The Pentagon has steadfastly maintained that all U. S. planes involved in recent Soviet incidents were engaged in training or navigational flights.

IN DISCLOSING the recent Red attacks, a formal U. S. note to Moscow noted neither of the American planes involved fired back despite what it called the "dangerous, offensive and provocative actions of Soviet fighter aircraft."

But it told the Kremlin in unusually stern language: "If such dangerous tactics are in the future repeated by Soviet aircraft in close proximity to American aircraft in international airspace, the Soviet government should be aware that commanders of American aircraft will be under instructions to take any defensive action which they consider necessary and appropriate."

County Education Council to Meet Here Wednesday

Community problems affecting the public schools will be discussed here Wednesday by the Riverside County Council of Public Education.

The Council, which meets at 10 a.m. in Frances Stevens School, will be addressed by Ted Bass, field representative for the State Council of the California Teachers Association, and an executive of the association's southern section.

Association officers from the southern section will join the council for lunch at noon.

al airspace, the Soviet government should be aware that commanders of American aircraft will be under instructions to take any defensive action which they consider necessary and appropriate."

THIS STATEMENT caused some puzzlement here. American pilots have been authorized for some time to fire back if attacked, and to pursue their attackers. A state Department spokesman, asked Monday whether new instructions would be issued to American pilots, said this might be done but he did not know. He referred newsmen to the Pentagon. Defense spokesmen said they knew of no new orders as yet.

At High School

Students Go On Honor System

Palm Springs high school students went on a new kind of honor system today.

More than 900 high school students will now be issued report cards which will not require the signature of their parents, ending a tradition dating back to the little red schoolhouse.

THE STUDENTS are now "on their honor" to see that their parents view the cards which document their progress in their studies and their deportment in class.

Dan Angell, head counselor at the high school, explained that "we're treating our students as young adults and placing them on their honor to show the cards to their parents or guardians." Angell said this is the first time in school district history that such cards have been issued.

REPORT CARDS are issued four times during the school year. Each card lists quarter grades in classes, days absent, times tardy, work habits and pupil cooperation.

The report card honor system

adopted here, Angell said, is patterned after a system now used in school systems throughout the nation.

Reactivated

Desert Promotion Group Lauded

Reactivation of the California State Chamber of Commerce's Southern California Desert Committee yesterday was lauded as a major step forward in eventual realization of the desert area as the state's foremost playground-tourist attraction.

George S. Ripley, a Palm Springs resident and businessman who has been appointed chairman of the committee, said that unity of action that can result from participation in such a committee has been lacking in the past. (The committee meets at the Oasis Hotel here Friday in the first such session since its reactivation.)

"WE FEEL THAT MORE can be accomplished if desert interests will work together rather than separately," Ripley said.

"Southern California's desert presently is one of the state's foremost travel and recreation areas, but its potential as an even bigger and better playground and tourist attraction has only been partially tapped."

THE COMMITTEE'S purpose, as expressed in the notice of reactivation from the State Chamber of Commerce, is to consider and act upon mutual problems of the Southern California desert area. The group had previously functioned successfully from 1951 through 1954 but has been dormant since then, Ripley said.

Featured speakers in the Friday conclave here are Palm Springs Mayor Frank Bogert and Manager Clark Galloway of the State Chamber's Southern California Division.

PARENTS TO GO BACK TO SCHOOL AT NELLIE COFFMAN JUNIOR HIGH

It's back to school time again for parents of youngsters at Nellie

N. Coffman Junior High School. Mothers and fathers will attend classes — seated in the same desks their children use — at the school Wednesday, Principal Warren Linville said today.

STARTING AT 7 P.M., parents will get a first hand glimpse of schoolroom procedures by attending "the same classes" as their respective children.

Parents will use their children's books, their children's desks and their children's teachers, who will explain the school curriculum to the temporary students.

If You Stand Still, You Wind Up in the Cellar

This Side of The Sun

By Phat

How can you keep That unruffled poise With all of those horns Making all that noise?

Chief of Police A. G. Kettmann was in to see me the other day. Talking about a subject long a pet peeve of mine—unnecessary horn blowing.

HE WAS JUST back from Miami, Florida, where he attended a police convention. Said he found the city strangely quiet and soon discovered why. It was the absence of automobile horns.

Along every street there were at intervals he said, neat little signs: "No horns please."

THAT'S ALL. No threats of arrest or anything like that. Just a police request to lay off the horn.

And it seemed to do the business.

Many cities in the east and midwest and many abroad have strict laws against unnecessary horn blowing. With arrests and penalties affixed.

CALIFORNIA has such a law which is applicable here. And under that law, any of you who pull up at the curb of your girl friend and, being too lazy to get out and go to the door to push the doorbell, just sound your horn, can be nabbed and fined by the judge.

Or, worse still, you and a pal are going fishing and you stop at his house at 2 a. m. and sound that horn. That should be a felony.

THE CALIFORNIA Vehicle Code, more commonly known as CVC, is definite about it.

It sets forth that every vehicle operating on the highways must be equipped with a horn in good working order that is capable of "emitting sound, which is audible under normal conditions from a distance of not less than 200 feet."

And then it goes on to say, and this is important: "The driver of a motor vehicle when reasonably necessary to insure safe operation shall give audible warning with his horn."

Then the big one: "Such horn shall not otherwise be used."

That is Section 671 of the CVC.

SO EVERY TIME you get impatient in traffic or use your horn as a doorbell can be picked up. And fined.

"People forget Section 671 and violate it every day," said the chief.

"In some cities with similar laws, they are taking action. 'Here we know we have many visitors and try to be considerate.'"

"But if the violations become too numerous or too brazen, we may have to start really enforcing CVC 671."

"Remember, that horn on your automobile is there for warning purposes only and then only when it is necessary."

I HOPE THE GUY who sounds his horn to call his friends out to his car at 2 a. m. reads this. I'd like to see him socked under CVC 617.

STAN DELAPLANE'S Postcard

A blue-sky day with a snap in the air. The nights are colder and so are the mornings. Up in New England they are measuring the bands on striped caterpillars to see if it is going to be a hard winter.

This is done each year and is pretty silly, if you ask me. How would a caterpillar know if it is going to be a hard winter? When even the weather bureau has gotten so cagey it lays ODDS on the weather.

"OVERCAST WITH chance one out of ten of rain." That is the way they forecast these undetermined days.

Suppose a caterpillar DID know if it was going to be a hard winter. Why would he grow himself wider stripes? The caterpillar measurers are just confusing things.

IT WILL BE A hard winter. I have been measuring the stripes on my pajamas. The stripes are not getting wider. They are just fading. A sure-fire indication.

The other night the hot-water heater blew a gasket.

The house was knee-deep in hot water. The price of replacing this item is \$190. Nobody has to tell me it will be a hard winter when you have to come up with a sudden One-nine-oh. Oh, oh.

I WOULD LIKE to know why heaters blow just three months after the guarantee runs out. Did you ever notice that? A guarantee is worse than a time bomb. I do not want a guarantee on my new heater.

If they give me one, I will soak it in a bucket of water.

AT THIS SEASON you should get the popcorn popper out of the attic. And you should lay in a supply of nuts. Also some apples.

Buttered popcorn and salted nuts and apples are very sustaining in cold weather.

In these modern days, we have an electric popcorn popper. I am against most inventions which are usually more bother than they are worth. But the popcorn popper is an improvement.

EARL WILSON:

Sponsors Watching Eddie

NEW YORK — Is Eddie Fisher — for his love o' Liz — really going to "blow his career" as Debbie Reynolds says?

He's "in a lot of trouble" for there's a TV panic on. Many shows are to be axed. An official at the cigaret company sponsoring him tells me there's to be a "re-evaluation" of Eddie's popularity due to the new stories he and Liz Taylor are marrying.

"We hire people in the hope they'll be extremely popular," this man said. "When things like this happen, we have to take another look."

But he added, "NBC's disposition is to do nothing about this"—and so Eddie may well ride out the criticism. "Who you going to replace him with?" one Madison Avenuer said. "'Twenty-one' or 'Datto' TV's so panicky it'll soon present 'spectacular spectacles!'"

The pan mail hasn't hurt Eddie much because it's so strange. Threats "not to buy any of your product while you're hiring Eddie Fisher" have even been received by Coca-Cola. . . which hasn't used him for two years.

Frank Sinatra ordered a 20-karat diamond solitaire here. (Now who does he know 20-karats world?). . . Jackie Gleason may claim to have lost weight but, in the opinion of Lyn (Taffy Tuttle) Dalton, "He's talking through his fat." . . Marilyn Morrison of L.A., ex-wife of Johnnie Ray, and dir. of Mary Morrison who ran El Mocambo, is marrying Red Doff, Mickey Rooney's partner, in 3 weeks. . . We hear Roxanne Arlen's marrying a doctor just to get her shots free.

When "La Plume de ma Tante" came in a winner Co-Producer Joe Kippess spoke out bitterly against some angels "who were yellow" and "had no guts." He said he'd bought out their interest when they were scared — for \$14,000 — and would now make a lot of money "out of their fear."

Si Seadler told the French cast of the Frenchman who found America so sexy he was leaving it. "Even sex highway signs are sexier," he said. "First, 'Soft

Shoulders,' den 'Dangerous Curves,' den 'Squeeze,' den 'Gals for \$1,' den 'Try Ethyl,' den, 'Caution — Children!'"

Sluggish and I have struck terror into the hearts of Tin Pan Alley with our songwriting. Jimmy Van Heusen and Sammy Cahn are pretending not to be scared, but Harry Ruby, composer of "Who's Sorry Now?" whimpers to me in a letter:

"How come that you, who have made such a success in your own line of work, suddenly decide to take bread out of the mouths of Irving Berlin, Cole Porter, Oscar Hammerstein and Richard Rodgers?"

Ruby — the one man who can make Groucho Marx laugh, or for that matter, shut up — is sure that I, too, will be a "Tin Pan Alley Cinderella story."

"Bert Kalmar and I once wrote a song, 'Snoops the Lawyer,' which, to this day, 34 years later, is still not selling," he says, and adds — inspirationally — "It is what they call a slow starter."

Jimmy Edmondson ("Professor Backwards") says in the delightful Anna Maria Alberghetti Latin Quarter show that he saw a woman running down the street with a steering wheel in her hand. "What happened?" he asked, and she said, "I think I hit something."

The Midnight Earl. . . Author Dean Jennings — who wrote a magazine piece about Mickey Cohen — flew south to duck Mickey's process servers. . . While Anna Maria Alberghetti's making up her mind about Buddy Bregman, she dated ex-beau Cary Maguire at the Harwyn. . . ABC's hunting the guy counterfeiting tickets to the Dick Clark show. . . Roy Campanella's son, 15, leads a rock 'n' roll group.

No 'Wolf' Difference

HOLLYWOOD — I asked Rita Hayworth, whose husbands have ranged from Orson Welles to Aly Khan to Dick Haymes, what's the difference between European wolves and American wolves.

Rita replied, "Just an ocean!"

Joan (Mrs. Pepsi-Cola) Crawford named Virginia Gibson Miss Pepsi-Cola of 1959 and promised the doll a publicity campaign "that will make you bigger than Polly Bergen!"

MGM SPENT thousands of dollars importing Cesare Danova from Europe and keeping him under contract two years preparation for the starring role in Ben-Hur. . . then gave it to Charlton Heston — so that was Danova making his U. S. film debut last week in support of Chuck Connors on a filmed Rifleman segment of TV!

George Gobel overheard another actor picking up his paycheck at the studio payroll window and pitching this at the cashier: "Thank you, sir, and believe me — this means MUCH more to me than praise!"

Mike Wilding says his actions were "misunderstood"—he doesn't want to take their children away from Liz Taylor because of her romantic antics with Eddie Fisher, he merely wants to take them to Palm Springs until Liz gets rid of her cold.

DEBBIE ANNOUNCED she plans taking the Fisher children to visit Eddie's folks in Philadelphia but how can she when she's had no contact whatsoever with them in two years? . . . Her press agent refers to Ziva Rodann as "Miss Israel of 1958" but I remember the Israeli actress telling me this at a party recently: "It's considered a bad taste in Israel for girls to enter beauty contests."

Tennessee Waltz: Tennessee Ernie telephoned Tennessee Williams in an attempt to tie up a Williams play for Ernie's forthcoming feature — length film, his first.

Speaking of Williams and his sordid studies of life in the South, Bob Hope points out that "The Garden District" is about cannibalism. "Requiem for a Nun" is about infanticide. "The Sound the Fury" is about incest. "The Long Hot Summer" is about barn-burning. "Hot Spell" is about infidelity. "Cat on a Hot Tin Roof" is about frigidity — "and WHAT," whaps Hope, "ever happened to Southern hospitality?"

CHANNEL CHATTER — Chicago — movie — producer-turned-TV — producer Armand Deutsch is testing Skip Homeier as Anne Francis' romantic sidekick in the new Claudia series. . . A slap-happy starlet sent her photo to the producing Mirisch Brothers inscribed, "Mirisch, Mirisch,

on the wall, who's the fairest of them all" So far, no answer from the Mirisches!

Chevy's Feb. 1 show (Dinah Shore will take a night off) will star five top Japanese acts, all imported from Tokyo, including singers, dancers and comedians. Hosts will probably be Shirley Maclaine and David Niven.

IRVING GERTZ, who writes background music for the M Squad series, wrote the music for Carl Sandburg's poem, "Buffalo Bill." It will be sung by a 70-voice choir at next Sunday's (Nov. 23) UCLA Salute to Sandburg.

Michael Rennie, for whom living has been anything but lonely signed to star in a Zane Grey Theatre segment, "Living Is a Lonely Thing." . . June Vincent's rehearsals for "Naked in Eden" (and this is no joke!) were interrupted while she went to the hospital to have her stomach pumped — all because her imaginative five-year-old daughter sprayed Mommy's morning cup of coffee and ant poison!

DINAH SHORE Has settled for signing 'em two at a time, male & female, for her show: Gale Storm & Burl Ives for her Christmas show Dec. 21, and for other shows, Shirley Booth & Bob Cummings — also Shirley Temple & Tony Randall.

I Love Lucy was the first show to use a studio — produced laugh soundtrack in place of the real thing, "way back when Lucy first teamed with her bongo-playing better — half to pioneer in TV. Now they're pioneering again and Lucy experimented with her filmed "K. O. Kitty" segment for Westinghouse-Desilu Playhouse but NOT using a laugh track. Meaning we can all sit back and enjoy it without a lot of cracking coming out of nowhere.

I'M A LAWYER, a new television series based on guess — what profession, is rolling at MGM-TV with Cameron Mitchell as the "I'm."

It's producer — changing time in Hollywood, George Englund, who bowed out as Marlon Brando's production aide to produce the Eddie Fisher series, is bowing out of the Fisher show and will be replaced, Bill Burch, who bowed out as Ralph Edwards' production aide to produce the George Gobel shows, is bowing out on Gobel and will be replaced. Both because the NBC-TVziers wants bigger ratings from both Fisher and Gobel than they've been getting.

Marie Windsor's promise to a promising young actress: "A promising young actress, if she's REALLY promising, doesn't have to promise a wolf — type producer ANYTHING but a good performance!"

Increase in County Taxes Shows Need for Desert County

On a basis of supervisorial districts the desert area is being burdened with much more than its proportionate share of the expenses of Riverside County government.

With only one Supervisor on the board of five, but a single district larger in area than some of the smaller States, the taxpayers of Palm Springs and the remainder of the desert region are paying nearly half of the total cost of operating the County government.

And to make matters worse, as taxpayers have probably noted in their latest statements, a general re-appraisal of properties in this part of the county at much higher assessed valuations has resulted in a considerable increase over amounts paid in previous years.

This would not be quite so detrimental to the desert district if most of the offices, employees, institutions and expenditures were made in or even near the local sources of revenue.

But, with the County seat and 80 per cent of the control and actual operation, services, functions and expenditures of government being made in a remote and restricted area on the "other side" of the mountains this large scale siphoning away of tax funds is detrimental and damaging to all phases of desert economy.

The plain facts are that Riverside County is much too widespread in area for efficiency, economy and equitable service, too divergently opposite in

climate, industries, occupation and major interest to function satisfactorily as a single county. Particularly with the county seat located at almost the extreme west end, almost 200 miles from the eastern border.

Even though the supervisorial districts were re-apportioned, which the people of the Riverside area have fought at every turn, the distances to the county seat, the differences in climate, and contrasting interests would remain unchanged.

The only permanently satisfactory, economically sound and desirable way for the now amply populous and developed desert region to secure and assure sound, economical, equitable and efficient County government is to establish its own separate and new Desert County.

The ever increasing tax load being placed upon the people of our one desert district by the poorly balanced existing County government is rapidly accentuating the important need to proceed without delay in formation of Desert County.

Only in that way can the virtual loss of 80 per cent of each tax dollar to desert taxpayers be ended and every penny paid in be put to full use and benefit of everyone who owns property or resides in the Desert Empire.

There is no reason why the four other districts in the County should continue to take a "piggy-back-ride" on local taxpayers.

How to Win, Though Republican

WASHINGTON, D. C. — If you are looking for a moral in the Republican rout of last election day, pause for a moment at the House of Representatives.

You will find many political carcasses strewn at the rear of the fortress, indicating that some Republicans executed that famous military maneuver called getting the heck out of there. Also, a few bodies — not as many as in the fields of flight — will be found by the fortress wall.

BUT—AND HERE'S the moral—there was one little knot of Republican fighters who had a reputation for standing on principle, without retreat. This group had a remarkably high rate of survival for convenience, we may divide it into three parts, even though there will be some overlap.

Part One consists of six Republicans. Every one of them was reelected. They composed a little-known section of the GOP Policy Committee. Their job was research. They dug up facts and trends, all carefully documented, and turned these over to the policy — makers and speech-makers of the party.

CHAIRMAN OF THIS section, or informal subcommittee, was Congressman John Ray of Staten Island, N. Y. Other members were Robert Wilson of Chula Vista, Calif., Gerald Ford of Grand Rapids, Mich., John Rhodes of Mesa, Ariz., Thomas Curtis of Webster Groves, Mo., and John Byrnes of Green Bay, Wis.

Staff director was J. Harkey Reiter, a Main Liner of Philadelphia. Along with Bryce Harlow of the White House staff, Reiter, as agent of the research section helped the President prepare his

two "chins up" addresses after the Russian sputniks flew. These addresses, and their supporting speeches in the House, were not world-shakers, but they constituted Republican rebuttal to Democratic jeers. They exercised the right of advocacy for the GOP position.

SURELY, THERE IS some cause and effect here. All six of the Congressmen won, and four of them won while their party's Statewide candidates for the Senate and/or governorships were losing. Their secret weapon: Aggression!

Part Two is actually an enlargement of the research body. It was called the response section, meaning response to Democratic criticism. There were 15 Republican Congressmen in this section. Only two were defeated in last week's election.

REPS. RHODES, RAY and Curtis, already accounted for, were also members of both the research and response groups. The other winners were Congressmen Frank Becker of Lynbrook, N. Y., Jackson Betts of Findlay, Ohio; Elford Cederberg of Bay City, Mich.; Edgar Hiestand of Altadena, Calif.; Perkins Bass of Peterborough, N. H.; William Cramer of St. Petersburg, Fla.; Steven Derounian of Roslyn, N. Y.; Joe Holt of Van Nuys, Calif.; Glenard Lipscomb of Los Angeles, Calif., and Keith Thomson of Cheyenne, Wyo. The only two losers out of both groups were Timothy Sheehan of Chicago, Ill., and Harry Haskell, Jr. of Wilmington, Del.

This 15-man flying squad had the prime mission of being responders to Democratic attacks on the House floor. They defended party poisons and personnel. All were volunteers. This fact

speaks everything for their determination and pugnacity. They worked closely with former Speaker Joe Martin, GOP floor leader in the House, and with Congressman Dick Simpson who headed the Republican House campaign committee.

IS IT JUST LUCK that 13 of these 15 survived the GOP debacle? None of them came from "safe" States or Districts, as there was no such thing for Republicans last Nov. 4. It seems logical to assume that these men, being foremost in the fight in Congress, put the same spirit into their reelection battles at home, that, as proved by frequent speeches and debates in the House, they knew the problem and the answers better than most of their colleagues.

Part Three is the handful of Southern Republicans. There were five House Republicans from the Confederate States. All of them won. One of them, Bruce Alger of Dallas, Texas, is very likely the most constructive conservative on his side of the Capitol. William Cramer of St. Petersburg, Fla., another unabashed right winger, was so irritated with Modern Republicanism that he might have left the party if he had had anywhere to go.

CHARLES JONAS of Lincoln, N. C.; Richard Poff of Radford, Va., and Joel Broyhill of Arlington, Va., are all to the right of center. Each of them ran and won, not only against the heavy Democratic registration in their States, but also against the trend.

Let every man write his own moral to these tales of victory amid the ruins. Mine is not new. It says — you usually get hurt when you're running away.

—Holmes Alexander

Letters to the Editor

The Desert Sun

As I am sure you know, some time ago the Palm Springs Chamber of Commerce designed and distributed rubber stamps on which we could indicate the daily temperature in Palm Springs on every piece of outgoing mail.

I thought, it might be of interest to you and your readers to learn of one of many instances where this stamp has produced tangible results for our village.

Some time ago our really firm sent a letter to Dr. Mace Gazda in Chicago. The next day he phoned and inquired of my wife,

"Isabelle, is that a picture of you holding that thermometer?" Then he proceeded to comment on the enormous difference between the temperature in Palm Springs and Chicago. Before the telephone conversation concluded, Dr. Gazda had purchased a very large piece of acreage near Thunderbird Country Club.

Actually, the above is but one of several instances of profitable ventures for Palm Springs which resulted from a simple device like a rubber stamp.

In as much as our temperature stamp has untold potential, let's all get on the bandwagon and start using them on every piece of outgoing mail to make people

Cameron Center to Observe 2nd Anniversary with Mayfair Opening

Project of George Cameron

Palm Springs is experiencing a face-lifting of major proportions. The Palm Canyon business district is moving southward at an accelerated rate to meet the dynamic economic growth of the entire desert area.

Responsible for this trend is the forceful and resourceful Oilman-Developer George Cameron, Jr. Since starting Cameron Center, two banks and Saks Fifth Avenue have located in the vicinity. And on Dec. 15 the center observes its second anniversary with the opening of Mayfair Market, the largest and most modern supermarket in the desert area.

MAYFAIR MARKET is the second business venture to locate in Cameron Center, first being the popular Huddle Springs Restaurant that Cameron himself constructed. These two enterprises will soon be joined by three national retail chains, none of which has ever located here before. Their names will be announced in the near future.

As evidence of his faith in both Cameron Center and Palm Springs' future, Cameron operates his extensive holdings exclusively from his Palm Springs offices in Cameron Center. These holdings, in part, embrace producing oil wells in Illinois, Louisiana, Texas, Oklahoma, Colorado, Wyoming, Montana and California. Many oil men have followed his lead in settling in Palm Springs and conducting their business from here.

WITH THE VISION and drive that have spelled brilliant success for him in so many other business ventures, Cameron is pouring \$5,000,000 into the 12½-acre merchandising mart. It's a bold move on his part to insure that Palm

GEORGE CAMERON, JR., right, shows Russell Wade, Cameron Center general manager, spot on California map where his newest producing oil wells are located. Cameron conducts his vast oil business exclusively from his offices in Cameron

Springs will receive a full share of the rush of progress engulfing this area.

Located at the intersection of South Palm Canyon Drive and Mesquite Avenue and possessing the deepest zoning of any business development in Palm Springs, Cameron Center was constructed after the Palm Springs retail requirement had been carefully studied by its developer.

CAMERON CENTER is being built because its owner has long felt that an extension of Palm

Springs' retail district was urgently needed. That without the tributary area spreading southward the expanding city's business needs would not be adequately served.

It is his belief that Palm Springs has never fully realized the business potentialities inherent in the drawing power of its name, internationally, nationally and locally.

A LOT OF PEOPLE, he feels, would be attracted by Palm Springs by a modern retail mart built upon the concept of conven-

ient shopping. Especially if that enterprise boasted a variety of shopping facilities for every pocketbook and taste provided care-free, off-street parking easy to get to as well as to get into.

Cameron conceived his center to meet all these requirements. Its parking facilities are spacious enough to handle 1,000 cars at one time, thus relieving one of Palm Springs' major problems. Its pleasing vistas, including park-like malls, trees and broad walkways, will serve to beautify the entire area.

Power Seizure May Have Foiled Merger Plot

LONDON (UPI) — The seizure of power in the Sudan by pro-Western Gen. Ibrahim Abboud may have foiled a plot to merge the Sudan with the United Arab Republic, Western observers said today.

The coup in Monday's pre-dawn hours ousted Premier Abdullah Khaliq who had been under pressure by his pro-Egyptian ministers to make a deal with UAR President Gamal Abdel Nasser over the Nile waters on which both the Sudan and Egypt depend.

NASSER REGARDED the agreement as vital to completion of his project to build the long-planned Aswan Dam with Soviet financial aid. An eight-man Soviet mission already is in Cairo and was flying to the dam site today.

A UPI, Cairo report said Nasser was planning to announce formal recognition of the new regime in hopes of quickly coming to terms with the Abboud government on distribution of the Nile waters to be backed up by construction of the Aswan Dam.

INFORMED SOURCES in Cairo said reports of an early recognition of Abboud indicated the UAR's favorable reaction toward the takeover. Prospects for improved relations already had been suggested by Abboud's call for an end to "artificially contrived tension" between the two nations.

Most sources in London believed the army coup was a major blow to Nasser's aim of uniting all Arab countries of the Nile Valley.

\$700,000 Price For Demo-GOP Meets, L.A. Told

LOS ANGELES — UPI — Oilman Edwin W. Pauley, former treasurer of the Democratic National Committee, told a joint city-county committee Monday that Los Angeles must be prepared to offer at least \$700,000 to attract the 1960 Democratic and Republican national conventions.

"It is my understanding that San Francisco is ready to guarantee \$300,000 to get the 1960 'Democratic convention,'" Pauley said. He also stated he had information that Philadelphia was willing to make a bid of \$310,000.

Pauley told the city-county committee on National Political Conventions that Los Angeles representative to the meeting of the Democratic Site Seeking Committee in Washington Dec. 5 must be prepared to guarantee that upwards of 12,500 rooms would be available for convention delegates as well as offer \$350,000.

He urged that Los Angeles make a bid for both conventions because, he said, it would be cheaper in that the same facilities such as decorations, switch boards and press accommodations could be used for both.

CHARLES F. ANGELL, for 11 years an employee of the California Water and Telephone Co., died yesterday at his home of a heart ailment. He was 42 years old.

Charles Angell Succumbs to Heart Ailment

Charles Franklin Angell Jr., California Water and Telephone Co. maintenance supervisor, died Monday at his home at Tramview of a heart ailment. He was 42 years old.

A native of Minnesota, Angell was a resident of Tramview for 11 years.

He is survived by his widow, Dorothy Angell; a son, Arden; a daughter, Chillon Kelson of Ingleside; a brother, Byron Angell of Cottage Grove, Ore., and one grandson.

Funeral services will be held at 11 a. m. Friday from the Wiefels and Son Chapel at 666 Vella Road, with the Rev. Jack Morrow, pastor of the Desert Chapel, officiating. Interment will be in Desert Memorial Park with Wiefels and Son Mortuary in charge.

Angell started his long telephone career at the age of 17 at the Villard, Minn., Telephone Co., a company in which he later became part owner.

Other telephone experience included five years with the Grant County Telephone Co. in Minnesota, and a short time with the General Telephone Co. in Wallace, Idaho. He came to Palm Springs in 1947 and started work on PBX installations for California Water and Telephone Co.

One siren will be installed in the area of Fourth Street and West Drive and the second will be set up in the vicinity of Desert View and West Drive, Holt said.

He asked residents not to be alarmed when the sirens sound.

SAMEL REPORTED

that the vote followed a motion for support of Little Morongo as opposed to the Dry Canyon route planned by the State Highway Department. The state expects to build its four-lane highway over the present Dry Morongo road, originating from Highway 99.

SPEAKING BEFORE the group assembled at the Yucca Valley Elementary School auditorium, Samel renewed his past arguments that the state route would be dangerous and more expensive.

He claimed the present route is subject to such road hazards as floods, mountain landslides and cave-ins. Samel also charged that costs of the Dry Morongo highway would be "considerably greater" than estimated.

SUPREME COURT TODAY WEIGHS QUESTION OF COLOR OF ORANGES

WASHINGTON (UPI) — The Supreme Court today weighed the question whether citrus growers must sell their oranges green.

The government contends a dye used by Texas and Florida growers to color the orange skins orange is poisonous.

But attorneys for Florida citrus growers told the court Monday that their industry will face "eco-

nomie disaster" if barred from using a limited amount of the dye. They said the public just won't buy oranges with greenish skin, the natural color of many ripe oranges.

THE HEALTH Education and Welfare Department contended that the dye should be banned completely.

The dye, a coal-tar product called "red-32," was originally approved by the government as harmless for use in food. After later experiments with animals, the department removed the substance from the approved color list in 1955.

THEN CONGRESS passed a special law the following year permitting its use in coloring Florida and Texas oranges until next March 1.

J. Hardin Peterson, Lakeland, Fla., attorney for the Florida Citrus Exchange, contended that the department misinterpreted the word "harmless" as meaning "totally without harm." He said almost any substance, including salt, could cause harm if a person consumed an enormous amount of it.

HE ALSO SAID the department had rejected a newly developed dye which they claim was 10 to 50 times as safe as red-32. But William W. Goodrich, the department's assistant general counsel, said claims for the new dye and the safety of red-32 were exaggerated.

The department is appealing a decision of the Fifth Circuit Court of Appeals, directing it to certify as safe batches of red-32 for oranges. The arguments brought out that 68 per cent of fresh oranges shipped from Florida are colored.

HOUND'S INSTINCT TURNS HUNT INTO MONKEY BUSINESS

ST. STEPHENS CHURCH, Va. (UPI) — Shep is an old dog and has been on many a hunt, but he'd never seen a critter like this one.

Mrs. Henry Temple Cook said Shep was taking his ease in the yard when the animal bounded across the yard, climbed a tree and later dropped to the ground near a chicken coop.

Shep followed his instinct. He chased the animal and finally overtook it in a nearby field where he shook it to death.

It turned out to be a monkey, whose presence in the area was not explained.

Hogan out To Win 5th Open

By OSCAR FRALEY
United Press International
MEXICO CITY — (UP) — Ben Hogan, the hawk of the fairways, took time out today to explain a pitch and putt philosophy which still may carry him to a record-smashing fifth U.S. Open golf championship.

Hogan is here to team with Sam Snead in the 32-nation International Golf and Canada Cup championships—the world Series of golf. The little belter's thoughts are never too far from the fabulous Open, which only he, ancient Willie Anderson and the immortal Bobby Jones have won four times.

"I still think I can win that big fifth," said the 46-year-old hawk, whose receding hairline is over-balanced by his ever-increasing enthusiasm.

THERE ARE THREE reasons, Hogan frankly admits, why the cards are conceivably stacked against him. These are the physical drain of advancing age, the demands on the nervous system, and the fact that he doesn't play in enough tournaments to become hardened to the tempo of competitive golf.

Yet, in the same breath, Ben will explain convincingly how he feels—that he personally can cope with any or all of them "as long as I can keep my enthusiasm up."

He insists it's the nervous system which gives you the most trouble. But Ben emphasizes that everybody who is making a run at it in the Open feels that nervous strain — on top of which in the Open they rig the courses with deep rough and narrow fairways.

Considering the third factor — he fact that he doesn't play enough tournaments — Ben feels that it would be easier for him if he could play Open courses in the few weeks before the event.

"NEXT YEAR, I'll play in the Seminole, the Masters, the Colonial and the Open, with possibly the Greenbrier thrown in," he says. "To all intents and purposes, it isn't enough tournament golf to get me mentally ready."

"You have to be mean and tenacious when you go after something like the Open," says Ben, his eyes glistening like chips of diamonds. "You can't be nice or placid or you'll get your brains knocked out."

"Yet," he added, "the kind of courses they play coming up to the Open doesn't do you any good. They are wide open and in most cases too easy to prepare you properly for an Open-type course. But everybody is wearing the same shoe, and I still think that with all factors taken into consideration I'll still win it a fifth time."

You can't argue with Ben about that. He won it in 1948 and then came back from a near-fatal accident that winter to take it again in 1950 at Merion in his most satisfying victory. Ben won it again in 1951 finished third in 1952, and recaptured the crown in 1953.

"I'll be around next June at Winged Foot," Ben declared. And you can bet on that.

Air Force Will Accept Bowl Bid If One Offered

COLORADO SPRINGS, Colo. (UP) — The Air Force Academy says it is willing and ready to go to a post-season football bowl game.

All that's needed, said Col. George Simler, academy athletic director, is a formal bid and the approval of Air Force officials in Washington.

"We have already agreed that we will consider any and all bowl bids that are proffered," Simler said.

"But we won't make any kind of decision until the season is over," the athletic director explained. "We have two tough games ahead of us yet."

The Falcons, undefeated and tied only by Iowa, 13-13, face New Mexico on Saturday and Colorado University on Nov. 29.

The Cadets have been mentioned as candidates for bids to the Sugar, Cotton, Orange and Gator bowls.

Can Win Without Red Says Haney

MILWAUKEE — (UP) — Manager Fred Haney said Monday night the Milwaukee Braves can win the 1959 National League pennant even without second baseman Red Schoendienst. But he added that the club might consider trading to strengthen itself at that position.

Haney, who was here for a testimonial dinner for General Manager John Quinn, said he was shocked to learn that Schoendienst was in a St. Louis hospital being checked for possible tuberculosis. If tests indicate the 35-year-old star has the lung disease, his baseball career could be ended.

Haney said he thought Mel Roach and Felix Mantilla could fill in for Schoendienst if needed.

NEWARK, N. J. — (UP) — Cincinnati Redlegs pitcher Don Newcombe and his two burly brothers were to plead today to charges they assaulted a former patrolman in their tavern last Dec. 22.

"These people are no different than anyone else," he said irately to the Newcombes' attorney.

The Cincinnati Redlegs pitcher was charged with his brother, Norman, of atrociously assaulting former East Orange patrolman Ulysses Ross in their tavern last Dec. 22.

Library Tips Given for Teen-Agers

By GERRY VANER
With the Thanksgiving season drawing near, we are reminded again of the importance of the Indians upon the living conditions and very lives of the early Americans colonists. Their friendship or hostility could mean feast or famine — life or death — to the settlers.

This is something we all know well (or are learning now) from our history books, but how many of us ever think of the effects which the coming of the white man had upon the lives of the Indians?

IN THEIR NEWEST book **BUFFALO CHIEF**, Jane and Paul Annixter show us what effect the guns, railroads, hide hunters, and soldier of the white men had upon the destinies of both the Indian tribes and the buffalo herds of the

Great Plains. There is something about the Annixter style that puts the reader immediately and comfortably in cadence with the rhythmic spirit that evolves so naturally from the Indian outlook on — and approach to — life, and all that it has to offer.

BY TELLING THEIR story in terms of individual members of the tribe and herd, the authors reach your heart as well as your mind. I, for one, will never look at another buffalo nickle without thinking of the master bull, Kah-tanka, who symbolized all of the courage, determination, instinct, and power that made the mighty buffalo herds what they were.

Standing Elk, the medicine man, is the guiding, spiritual light of a band of Oglala Sioux. Hawk, his warlike son, is the essence of all brave, young, Indian warriors. Stabs-the-Bear is strong physically and spiritually, and Sitting Bull is the logical leader around whom all of the other tribes rallied their support against a common foe.

AS FOR CUSTER'S Last Stand at Little Bighorn, in this book "You Are There" and "Seeing It Now!" And what's more, you're seeing it from the Indian point of view, which is quite a switch

from the usual approach! Did you know that a single buffalo could never maintain the fast, rocking lope of a full herd travelling together — that it took the rhythm of the whole group to sustain these high speeds? And it was the rhythm of the seasons that made nomads of the herds and of the Indians who followed them for food . . . clothing . . . shelter . . . and sport.

THE INSPIRED interweaving of the twin plots, as both the buffalo and the Indian struggle for survival against almost insurmountable odds, is so well done by the Annixters that each seems to add to the drama and excitement of the other — and, in each case, it is the final wisdom and adaptability of the leaders that save the others from complete and total extinction.

I had the strangest feeling, while reading, that I wasn't seeing words on a printed page, but rather that I was watching the whole panorama come to life before my eyes as though it were

being portrayed in one of Walt Disney's "True-to-Life" series of motion pictures. Perhaps Villager Disney will read this book and see it in that light, too!

I have finished the book, but my mind and my spirit are still out there on the plains, where — for so many years — the Indians and the buffalo roamed . . .

Company Proves Camel's Design Here to Stay

Proof beyond question was provided last week that Americans take the appearance of their favorite products as seriously as the quality. One of the most remarkable events in modern merchandising occurred when R. J. Reynolds Tobacco Company began a test of a slightly different label for Camel cigarettes. No change whatever was made in the product itself.

The few minor changes made in the familiar package were a modernization of the 45-year-old design which the company felt would pass without conscious notice by most smokers and be noted with only casual curiosity by a few. Public reaction proved astonishing.

The package changes drew immediate response from loyal Camel smokers with most objecting to any change in their familiar package. Thus the test came to an end. As a measure of the true loyalty of smokers to their favorite cigarette, this test provided the greatest testimonial to Camel cigarettes that could possibly be imagined.

R. J. Reynolds will discontinue the test and, in advertisements in newspapers throughout the country, will publicly thank the millions of Camel smokers "for helping us to decide not to change the label of the best-liked cigarette of them all."

A company representative stated, "The extraordinary reaction we've had certainly indicates these test packages are going to be real collectors' items in a very short time."

Justice Triumphs
BISMARCK, N. D. — (UPI) — A Bismarck police magistrate fined himself \$30 on a traffic charge recently and gave himself a thorough tongue-lashing besides.

The magistrate, I. M. Oseth, arrested himself for careless driving after he drove his car partway through a red light.

During a lecture to himself in the presence of the chief of police, he said, "The defendant should be ashamed of himself and is."

Oseth then completed the usual procedure in such traffic violations — he punched his driver's license and sent a report of the incident to the state patrol.

The first railroad passenger service in New England was operated between Boston and Newton, Mass., in 1834.

Your Car and the Law

Called for an Interview

Each month, nearly 4,000 California drivers are summoned to hearings, interviews or reexaminations before Driver Improvement Analysts. There are some 100 analysts throughout the State handling problem drivers.

These drivers are traffic law violators, alcoholics, drug addicts, physically and mentally disabled drivers and accident repeaters.

IF IT APPEARS THAT a driver's attitudes or defects can be corrected, he is permitted to continue on a probationary basis, promising to obey all traffic laws if he has been a violator, or have his doctor provide periodic reports on the progress of his health if that is what his trouble is.

About 1,000 drivers are tried out each month on such a probationary arrangement. During the hearing leading to probation, it is made clear to the driver that his record is more serious than he had thought, or that his driving constitutes a hazard to himself and others unless corrected immediately.

DRIVERS ARE MADE to realize that socially and economically safe driving is imperative if they are to retain their driving privilege.

This process actually results in noticeable improvement in the records of the majority of probationary drivers. When a year has passed without further trouble, probation may be terminated.

IN WELL OVER 1,000 cases a month, after reviewing the records of probationers, the analysts find no evidence of further trouble or traffic convictions and are happy to end probation, realizing that their efforts have actually had the result intended, driver improvement.

The outlook for increased traffic safety through the improvement of individual drivers is very encouraging.

We're putting the pyramids right back where they were!

Recently we have been testing a slightly different label on the Camel package. The experimental design changed the illustration and the wording a little. That's all. No change whatever was made in the famous Camel blend of choice Turkish and domestic tobaccos.

What we learned in the test is that Camel smokers prefer the original package, so we're putting the pyramids right back where they were, as quickly as we can do it. The test package is being discontinued, so you will soon be getting your Camels in the package you know so well.

We have always been proud of the loyalty of Camel smokers, and we thank you for helping us decide *not* to change the looks of the package that brings you the best-liked cigarette of them all! (Yes, we are happy to say that again this year, for the 10th straight year, Camel outsells all others!)

THE TENNIS CLUB opened formally Saturday night, operated by its owner Mrs. Austin McManus, who is shown here, center, with two

of her opening night dinner guests, Mr. and Mrs. H. L. Thompson of Riverside. (Conrad Hug Photo)

Tennis Club Holds Opening

RELAXING IN PALM SPRINGS after several hectic weeks in Los Angeles, where she was in charge of the Assistance League benefit, at the Auto Show, are Mr. and Mrs. John Q. McClure. They were in the crowd at Tennis Club's formal opening. (Conrad Hug Photo)

Aglow with lights, the Tennis Club was like a brilliant-faceted jewel in its mountain setting for its formal opening on Friday night, and Mrs. Austin McManus, who is operating the Club herself this season, was the recipient of many good wishes as she welcomed members and guests. Looking regal in black with a single white orchid for accent, Mrs. McManus presided at a table for 11. Her guests were Mr. and Mrs. H. L. Thompson of Riverside, Mayor and Mrs. Frank Bogert, Mr. and Mrs. Roy Colegate, Mr. and Mrs. Dick Edwards, Mrs. George Libera and George King.

Assisting in welcoming arriving guests was Joan McManus, who is back at the Club this year in the role of social director. Mrs. McManus wore white, with a white orchid on the halter strap of her gown. The Club was well-filled and the dance floor was crowded all evening, as the dinner crowd danced to the music of Tony Romero's orchestra.

One table by the dance floor found a party celebrating the 18th birthday of Susan Strebe, daughter of the Earle Strebes. In the group were her parents, her grandmother Mrs. Zeddie Bunker, and two classmates from Bishop School for Girls, Margaret Hartley and Lindsay Porter.

At a favorite table in front of the big fireplace were the Walter Braunschweigers, H. H. Ridders, S. P. Manasses, B. J. Sanchez and Pierre Bouscaren. Commander and Mrs. Maurice Horner, Commander Tom White were there with Mrs. Howard Caldwell, for whom they hosted a big cocktail party preceding the dinner.

The Charles Irwins were with the Chester Goulds, and the Alvin Weingartens with the Earl Houghs, and Tennis Club Manager and Mrs. Jack Buchanan hosted a table.

The John McClures were there (Lillian is just beginning to get her breath after the fabulous job she did for the Auto Show, an Assistance League project), with the Wally Brunmarks, at a table alongside the dance floor. With the Tom Hollands were the Ralph Shelleys, Eleanor Kane, Anne Gougler.

Also in the crowd were the Vahan Alchians, Arsin Alchians and Mr. and Mrs. Sam Sarkis of Santa Monica. With Genevieve Berg were the Ray Henrys of Phoenix (she's Genevieve's niece), and the Al Gibsons of Beverly Hills. Jan King was escorted by Norman Olsen. Others in the big crowd included: the John Costellos, Earl Hendersons, George Berkeys, Harold Murphys, Erwin Isenbergs, Vivian Davies and Jack Fugit, Mrs. Harold Bell Wright, the Eddie Meyersons, Dick Atterburys, Mary Bedford-Jones, and many, many more.

Fresh snow on the mountains... like icing on the cake... brightens the landscape... and reminds Palm Springers that there are colder regions to the east and to the north... First chilly weather brought out minks this weekend... Horners had a 100 people in their livingroom Saturday night... instead of comfortably divided between there and the poolside area... This was an interesting weekend... with the Tennis Club's formal opening... Shadow Mountain Club's and La Quinta's, too... Santos' traditional family party for the Committee of Twenty Five Club... the Sunday Brunch... and many informal affairs for visitors here for the tournament play this week...

One of the smartest affairs of the weekend... was the Sunday night cocktail party which Grace Hope and Anita Stewart Converse gave in the Presidential suite at Desert Inn...

They were just here for a long weekend... and Grace is off to Honolulu soon... but will be back in January... The lovely Anita... who was one of the Movie Queens of the old silent era... is beautiful and gracious...

Arthur and Betty Jarwood were there (he flew out from New York for another of his fast weekends)... the Glenn Austins (I hear their new house is the House of the Year)... Sewell Bradley, Bob West (the fabulous young decorator from Las Vegas... and an old school mate of Bob Taliaferro's)... Pat Wright, Jan King and Norm Olson... the Bob Snelsons (the charming young couple who have the new Diamond Head store on the Inn grounds)... Winsome Courtney (just in from New York and getting ready for her first fur fashion show at Thunderbird on Friday)... Trudy and Paul Reynolds, Judge and Mrs. J. Hamblin, the Bud Sheehes, Lynn Jennings and Bill Webb... the Gordon Browns, Edith and Dick Edwards, Win Becker (slim and smart in black after her stay at Main Chance), the Ken Hermans... the Jerry Lipseys (they have a new home here in the Village)... Jerry Fredricksen, Ben Burnette, and a few others...

Saw Theresa Fields at the Tennis Club opening... and she is still recuperating from an un-

py summer... when she had an eye operation... and a fall that fractured a vertebrae in her back and put her into a cast and then on crutches...

Monte and Betty Herbert are out at Wonder Palms Hotel for a few days... as Betty finally realized her ambition to get her handicap low enough to play in the Thunderbird tournament... With the Herberts are Ted and Ed Herlocker and Ellouise and Bill Lawson... They are all of Wilshire Country Club... and all three women are in the tournament...

Friends of Vie and O. E. L. Graves who have been wondering how Bud's one-man show is doing in New York... will be happy to hear that it is as big a success as everyone was hoping it would be...

Bud called Wally Brunmark from New York on Sunday... and said that he feels the show has been very, very good for him... that the Heller Gallery... where it is showing... expects the show to create a constant demand for Graves' paintings... and four art museums are adding a Graves' picture to their collections...

From George Shaw... who is in New York... comes a more graphic report... George writes... "Bud Graves' show is the biggest thing since sliced bread... of the 30 paintings he has already sold several... and Tiffanys

may recoup their Signorini loss (George said Tiffanys bemoaned Signorini's Tennis Club show... because it took the beautiful statues out of Tiffanys)... by showing those sensational bags of Bud's... if he can find the time to do it... There have been many one-man shows... but Bud may be doing two one-man shows if Tiffanys shows the bags..."

The show closes this coming Saturday... and Bud and Vie will visit the Mel Eatons in Norwich... before starting a leisurely motor trip home via the southern route...

The Wonder Palm Road home of Wrenn and Will Tevis was the scene of a Saturday night dinner party... when they entertained the Louis Benoists of San Francisco and Palm Springs... and the Robert Barrys of Bronxville, New York...

One of the charter members of Eldorado Polo Club... Benoist owns his own plane (a 14-passenger deal) and transports polo players to and from games all over the country... Barry... newly-elected Republican Congressman from Westchester... is one of the aides to New York's new Governor Nelson Rockefeller... He and his wife are at Eldorado for a month's stay before reporting to the Capitol to assume his new duties...

Postmaster Launches 'Mail Early For Christmas' Drive This Week

"Christmas may seem quite a way off, but nevertheless, we're starting our annual 'Mail Early For Christmas' Campaign immediately, because there's every indication that the 1958 Christmas season will set an all time mailing record," Postmaster Merritt Williams said today.

Right now is the time to plan your Christmas card and gift mailings, Williams continued. The first thing to do is to check Christmas card lists very carefully — make sure that each address includes full name, street and number, city, zone and state.

"BY A LITTLE advance planning, a lot of headaches can be avoided when the Christmas rush is on, the postmaster said.

He suggested that you stock up now on heavy wrapping paper, sturdy corrugated cartons, strong cord, and paper adhesive tape, for use in securely packing and wrapping Christmas gifts. Christmas cards or letters also can be included inside gift packages if appropriate First Class mail stamps are added to the postage for the package itself.

Williams also suggested that patrons secure from the Post Office — Pamphlet No. 2, which gives full information about proper packaging and wrapping of parcels for mailing. When cutting for the pamphlet, be sure to buy sufficient postage stamps for cards and gifts, he said.

The Post Office also has free labels which read, "All for local delivery" and "All for out of town delivery," so that before mailing Christmas cards they can be sorted into two groups, with the addresses all facing one way, thus expediting delivery.

"BE SURE TO USE only First Class four cent, or seven cent Air Mail postage on your Christmas cards," Williams said. "All cards sent by First Class mail may include a personal handwritten message, whereas a signature only is authorized on cards that are mailed at the three cent, Third Class rate.

"It's especially important to include your return address on every Christmas card envelope. Besides being socially correct, this is a big help to both you and your friends in keeping your mailing lists up-to-date."

THROUGH THE FINE co-operation of the public during recent years, Williams said that great progress has been made in getting the Christmas mails through on time. He is making many advance preparations to handle the 1958 Christmas mail rush, with extra mail clerks, carriers, and expanded facilities all around.

"With over 170,000,000 people in the U.S.A. today, that means more Christmas mail than ever before, and that's why the Post Office needs your help in planning your Christmas mailings well in advance," Williams added.

Christmas cards and gifts for most distant points should be mailed first, preferably well before Dec. 10, and those for near-by points should be mailed by Dec. 15, or at least a week before Christmas.

Two thousand years before the "invention" of heating and cooling by air, Roman homes in Britain were warmed by "hypocausts" —underfloor air passages leading from an outdoor fireplace.

DEAR ABBY

By Abigail Van Buren

DEAR ABBY: My father has a bad temper. For example when the Yanks won the game he kicked the TV set and it doesn't work any more. My main problem is this: He cusses us kids out in a foreign language so loud that everybody on the block can hear. All I said was, "Pa, if you are going to cuss us out in front of the neighborhood the least you can do is to learn it in English." For this, he hit me right in the mouth. Was that fair?

JOEY (age 11)
DEAR JOEY: I don't know what your father said when he lost his temper, but maybe you should be glad he didn't say it in English.

DEAR ABBY: I am a 19-year-old girl who let a man sweet-talk me into ruining my life. He said he was 30 but I found out he was 40. He lied about his religion, his past and where he worked. He served time and has been married. I had to find this all out by myself. After he learned I was pregnant he offered to marry me, but I wouldn't marry him if he was the last man on earth. My mother says I am a disgrace to womankind to turn down a chance to marry and give my baby a name, but I can't see myself married a lifetime to the likes of him. I intend to put my child up for adoption, as I have nothing to give it, not even a dozen diapers.

Am I being selfish or am I doing right?
MESSED-UP LIFE

DEAR MESSED-UP: You are wiser than most girls who have found themselves in similar circumstances. Marriage is forever and not a momentary cure-all for one mistake. A girl who ties herself to a hopeless character in order to give her baby "a name" — lives to regret it.

DEAR ABBY: My husband and I had a good laugh over that letter from the lady with the large nose who was afraid to marry the man with a still larger nose for fear their children would have "noses" to end all noses." Both

my husband and I have large noses and when I was pregnant I prayed for a boy because I didn't want a little girl with a nose such as could have come from us. We have two lovely daughters and they have the cutest little noses in town. So I say, "Go ahead and marry—God takes care of those little details."

MARGIE
DEAR MARGIE: And if God doesn't — the plastic surgeons do.

DEAR ABBY: I am the most broken-hearted person on earth. I always found time to go everywhere else but to see my dear old gray-haired parents. They sat home alone, loving me just the same. It is too late now to give

them those few hours of happiness I was too selfish and too busy to give, and now when I go to visit their graves and look at the green grass above them I wonder if God will ever forgive me for the heartaches I must have caused them. I pray that you will print this, Abby to tell those who still have their parents to visit them and show their love and respect while there is still time. For it is later than you think.
TOO LATE

CONFIDENTIAL TO TUBBY:
